Subject: Technical Review Comments on Rocky Flats Plant
Draft Standard Operating Procedures (SOP)
GT.27, Rev. 0; GT.28, Rev. 0; GT.29, Rev 0
Global Positioning Systems (GPS) and Equipment
GT.31, Rev. 0 Field Use of Tensionmeters

As a result of our review of the above referenced documents and responses to our previous comments, EPA approves these SOPs. Regarding the use of GPS, EPA requests that DOE submit a brief list of the projects and types of locations for which GPS has been used in the past and ones for which GPS will be used in the future. Also with this list, indicate whether the GPS locations have been or will be verified using standard surveying techniques.

If you have any questions regarding these matters, please contact Gary Kleeman of my staff at 294-1071.

Sincerely,

W.C. Fuernberg
Martin Hestmark, Manager
Rocky Flats Project

cc: Bruce Thatcher, DOE
Gary Baughman, CDH
